

Consultation on the provision of information

We have launched a new consultation on the provision of information about the Landfill Communities Fund (LCF) and ENTRUST. All Environmental Bodies (EBs) are invited to participate in this consultation by [completing a survey available at this link](#). The survey will close on 23 November 2018.

The purpose of this consultation is to assess the value and use of information currently provided to stakeholders and identify any further improvements which could be made. It is hoped that by completing the survey stakeholders will also get a better idea of the information available to them and how to access it, as links to the available information are provided throughout the survey for reference.

ENTRUST will consider all feedback and suggestions in deciding on whether to make improvements to the provision of information. It is important to note however that we cannot publish any information which might identify individuals or EBs or which is confidential financial information. Any proposals will be subject to a full cost benefit appraisal to ensure the proper use of limited resources following the reduction in the size of the LCF scheme. Towards the end of the survey individuals may opt to receive a response to their feedback and/or attend a forum to further discuss the provision of information. We will review all responses and provide a report summarising our findings and next steps.
